

# AZURA

(BREANNA MORGAN)

## VISUAL ARTIST, BODY ADORNMENT ARTIST, & CREATIVE DIRECTOR

Azura is a multidisciplinary artist and cultural curator dedicated to storytelling, history, and preserving diasporic narratives. Through body adornment, henna art, and mixed media, Azura explores themes of identity, resilience, and heritage, using art as a medium to rewrite forgotten histories and celebrate cultural legacies. Deeply inspired by nature and traditional practices, Azura incorporates sustainable materials and organic elements into their work, blending artistic expression with environmental consciousness.

Rooted in community engagement, Azura fosters spaces for dialogue, education, and creative empowerment. Through exhibitions, workshops, and interactive installations, they seek to bridge the gap between past and present, ensuring untold stories and cultural traditions remain alive and relevant. Their practice merges artistic innovation with activism, shedding light on the intersection of culture, nature, and identity.
